EDUCATION

University of Washington, BS in Computer Science	Sept 2021 – March 2024
Google Advanced Data Analytics Professional Certificate	April 2024 – June 2024

SKILLS SUMMARY

Programming Languages	Python, R, SQL
Data Storage Technologies	Databricks, Google BigQuery
Libraries and Frameworks	Pandas, Numpy, Scikit-Learn, Pytorch, Statsmodels
Experimental Design Methods	A/B testing, A/B/n testing, Multivariate (MVT)
Data Visualization Tools	Looker, Tableau, Matplotlib, Seaborn
Machine Learning Skills	Regression analysis, Advanced predictive modeling, NLP
Soft Skills	Multi-tasking attitude, Clear communication and relationship building, Attention to detail, Teamwork, Analytical Problem Solving

RECENT PROJECTS

NYC Taxi Fare Estimator Project GitHub Link	June 2024
- Achieved 87% R^2 score at predicting taxi fares by building and evaluating multiple regression models using Python. - Developed cross-validated RandomForest and XGBoost models to predict tipping behavior, achieving a 72% F1 score and 68% accuracy. - Provided actionable insights and business recommendations to the TLC company to promote credit card payments and increase revenue for taxi drivers.	
Churn Cohort Analysis and Customer Churn Prediction GitHub Link	May 2024
- Conducted a comprehensive EDA and churn cohort analysis to identify key factors contributing to customer churn. - Achieved a 79% accuracy and 46% recall score by building and evaluating multiple models including Decision Trees, Random Forests, Gradient Boosting Machines, and AdaBoost. - Improved recall score by 17% for GBM and AdaBoost models by oversampling the minority class.	
Clustering Shopping Mall Customers GitHub Link	December 2023
- Conducted comprehensive exploratory data analysis (EDA) in Python and visualized customer clusters to provide actionable insights for targeted marketing strategies. - Implemented K-Means, DBSCAN, and Hierarchical clustering algorithms using Scikit-Learn to segment shopping mall customers based on age, income, and spending behavior.	

DATA PROFESSIONAL CERTIFICATES

From Data to Insights with Google Cloud (Google)	August 2024
Machine Learning Professional Certificate (IBM)	February 2024

HONORS

Osher Reentry Scholarship	April 2022
Boeing Company Endowed Scholarship	June 2020
